

ACRYLIC SPLASHBACKS

FOR BATHROOMS, SHOWERS, LAUNDRIES AND KITCHENS

Is your kitchen or bathroom looking a little dated or drab? An acrylic splashback can be an easy and relatively inexpensive way to inject some much-needed style and jazz up a tired space. Here we explore the acrylic splashback and latest trends in style and design.

What is an Acrylic Splashback?

Why Choose an Acrylic Splashback?

Shower walls in OzzieBlue

Showerwall in a Cream Colour and Mosaic Tiles

Acrylic splashbacks look a lot like glass, which is part of their appeal as they tend to be more cost effective. They are often used to modernise a bathroom, laundry or shower. Installed in kitchens they look stunning with a heat proof insert behind the cook top. We use the highest German quality optically 6mm transparent acrylic. Installed as a long sheet or as a simple panel, an acrylic splashback is a relatively easy and inexpensive way to modernise your home and impress guests (and prospective buyers). The beauty of acrylic splashbacks is that they come in a rainbow of colours. We are able to match any Dulux colour from our expansive colour range. OzzieSplash is also a specialist in installing METALINE® splashbacks.

Ideal to go over existing tiles

Here are a few of the many benefits of acrylic splashbacks:
ACRYLIC CAN GO OVER EXISTING TILES and is a substitute to tiles.... like a tiles alternative..

- Durable & Versatile
- Available in plain and metallic colours
- Hygienic
- Easy to clean with a wet cloth
- No grout, so no chemical cleaners needed
- **DIY also available in sheets or cut to size**

Ideal for Laundry Walls
